Otters often leave their cubs to go fishing. If you come across an otter cub then think **ECO** and follow these simple steps:

**E**value - Is it in immediate danger? Roads/dogs etc.

**C**all - call someone for advice, the International Otter Survival Fund is available at 01471 822 487 or 0758 258 9486

**O**bserve - keep an eye on it or come back in a couple of hours and see if things have changed

**Otters are wild animals and should be treated as such, never attempt to pick up an otter as it may defend itself**

Charity Number: SC003875
